3. 出張目的 国際イネいもち病国際会議への参加
4. 成果の概要 (Outline of your trip)

The International Rice Blast Conference (IRBC) is held every four years to report all the advancement studies about the rice blast fungus.

The 6<sup>th</sup> IRBC theme title was “Translation from Genomics to Disease Management” held in Ramada Plaza Jeju Hotel from August 20 to 24, 2013.

I presented a paper in titled “Development of near-isogenic lines for blast resistance with an Indica -type rice variety IR64 genetic background in the conference.
