

外国出張報告書

平成 26 年 7 月 14 日

1. 出張国名 韓国
2. 出張月 平成 26 年 6 月
3. 出張目的 第 20 回土壌学会議（20th World Congress of Soil Science）への参加：B
4. 成果の概要
 - My abstract, titled “Interaction between Fe plaque and Zn uptake in rice” was accepted as a poster presentation at the Mobilization of Essential Micronutrients by Exudates session in 20th World Congress of Soil Science.
 - The conference was held over five days. Although I am not sure of exact attendance numbers, generally attendance is around 2000 delegates.
 - A meeting was done and discussed with researchers regarding biological mobilization of metals in acidic, iron rich landscapes, at Seoul University.
