

## 外国出張報告書

平成 26 年 12 月 24 日

1. 出張国名       タイ
2. 出張月       平成 26 年 10～11 月
3. 出張目的       第 4 回国際イネ会議（IRC）への参加   ： B

#### 4. 成果の概要

I attended the 4th International Rice Congress (4IRC) held in Bangkok, Thailand, and presented a poster entitled: “Effect of low phosphorus seed content on seedling vigor and yield of rice”, from October 28th to Oct 31th, 2014.

In general, the conference was very informative and instructive. The main message of the congress was: “The world is hoping in rice to reduce hunger, improve nutrition and reduce poverty under a changing global climate. To achieve this goal, a second green revolution in agriculture has to start right now”.

In addition, we organized a small Pup1-network meeting in order to get to know each other in the network, and to discuss the constrains and advances of our work.
