4. 成果の概要

The business trip was done to participate in the Rhizosphere 4 international conference, held in Maastricht, Netherlands, from 21-25 June. I was a member of the scientific organizing committee and in charge of selecting abstracts suitable for presentation in the session “Towards Application”, which I later co-chaired.

In that session I presented a talk with the title “Improving nutrient acquisition efficiency in rice: Can we target specific rhizosphere mechanisms?”. Furthermore I presented a poster in the session on ‘nutrient uptake’ entitled “Improving phosphorus acquisition efficiency in rice: The role of mycorrhizal versus plant-induced uptake mechanisms”.
