

Contents

Opening Address -- Shiro OKABE	i
Welcome Address -- Yoshihira SHIMOURA	ii
Welcome Address -- Ryuhei TAKAHASHI	iii
Sweet potato breeding method using wild relatives in Japan -- M. KOBAYASHI	1
Genetic improvement of cassava (<i>Manihot esculenta</i> Crantz) for productivity -- K. KAWANO	9
Forage sorghum breeding by using male-sterile lines -- I. TARUMOTO	23
Methods in sugarcane breeding -- J. T. RAO	33
Tobacco breeding by anther culture -- T. OINUMA	43
New techniques in backcross breeding for rice improvement -- H. FUJIMAKI	55
Breeding methods and procedures employed at IRRI for developing rice germ plasm with multiple resistance to diseases and insects -- G. S. KHUSH	69
The differentiation, classification and center of genetic diversity of cultivated rice (<i>Oryza sativa</i> L.) by isozyme analysis -- M. NAKAGAHRA	77
Acceleration methods for generation advancement in hybrid populations of rice -- F. KIKUCHI	83
Breeding deep water rice in Thailand -- C. PRECHACHAT	95
Deep-water rice in Bangladesh -- S. M. H. ZAMAN	101
Test tube breeding of rice by tissue culture -- K. OONO	109
Breeding of soybeans in Thailand -- A. N. LAMPANG	125
Breeding methods in legume crops -- D. A. RAMIREZ	131
Chromosome engineering and acceleration of generation advancement in breeding rust resistant wheat -- K. MUKADE	135
Breeding of disease resistant tomatoes in Japan -- K. YAMAKAWA	145
Progress in tea breeding -- S. KULASEGARAM	151
The breeding of cacao (<i>Theobroma cacao</i> L.) -- J. SORIA V	161
The breeding of oil palms in Malaysia -- S. C. OOI	169
Breeding for fatty acid composition of oil in rapeseed, <i>Brassica napus</i> L. -- T. SHIGA ...	187
Philosophy and strategies in coconut varietal development and seed production at UPLB -- J. T. CARLOS, JR., J. B. SANGALANG and L. E. FABRO	197
Virus free materials in fruit trees -- A. YAMAGUCHI	207
General Discussion	213
Concluding Remarks -- Kenkichi SAKAI	223
List of Participants	225
